BK2
CENTRE PIN 60mm BASIN WASTE
AND 1 1/4" P-TRAP ASSEMBLY
Installation and maintenance instructions

Components

Waste & Plug assembly

P-Trap assembly

Installation instructions for P-Trap

1. Place the Waste (3) with the white Washer (4) or apply
   sealant into the waste hole in the WHB.
2. Drop the Ferrule (2) through the centre of the Waste (3).
3. Assemble the black washer (7) to the flange on the stalk (8),
   add the spacer (6) and then the silicon Washer (5).
4. Position items 5,6,7,8 on the underside of the WHB at the waste
   outlet hole, and tighten (**No more than hand tight + 1/4 turn) the
   Ferrule (2) clockwise until the waste assembly is fixed to the
   WHB.
5. Finally, assemble the spring loaded plug assembly (1) by
   pushing the stem of the plug into the centre-pin ferrule (2).

Installation instructions for CWP60-SSP: Spring loaded centre pin basin waste (Sub-assembly)

FIXING INSTRUCTIONS: DRY FIX. NO SEALANT-REQUIRED.

INSTALLATION ON A WASH-HAND BASIN (WHB) WITH OVERFLOW.

1. Place the Waste (3) with the white Washer (4) or apply
    sealant into the waste hole in the WHB.
2. Drop the Ferrule (2) through the centre of the Waste (3).
3. Assemble the black washer (7) to the flange on the stalk (8),
4. Position items 5,6,7,8 on the underside of the WHB at the waste
   outlet hole, and tighten (**No more than hand tight + 1/4 turn) the
   Ferrule (2) clockwise until the waste assembly is fixed to the
   WHB.
5. Finally, assemble the spring loaded plug assembly (1) by
   pushing the stem of the plug into the centre-pin ferrule (2).

1. Place the Waste (3) with the white Washer (4) or apply
   sealant into the waste hole in the WHB.
2. Drop the Ferrule (2) through the centre of the Waste (3).
3. Assemble the black washer (7) to the flange on the stalk (8),
4. Position items 5,6,7,8 on the underside of the WHB at the waste
   outlet hole, and tighten (**No more than hand tight + 1/4 turn) the
   Ferrule (2) clockwise until the waste assembly is fixed to the
   WHB.
5. Finally, assemble the spring loaded plug assembly (1) by
   pushing the stem of the plug into the centre-pin ferrule (2).

6. Remove Inlet Nut (9) and Blue seal (10) from the trap body and
    assemble onto the waste assembly outlet stalk (8).
7. Assemble the Trap Body (10) onto the outlet stalk (8) push
    the seal (10) into the trap body then tighten the Inlet Nut (9)
    **No more than hand tight + 1/4 turn.
8. Assemble the Outlet Nut (13), Backup Washer (12) and Outlet
    seal (11) onto the outlet pipe and push into the outlet of the
    Trap Body (10). Push the Outlet Seal (11) and Backup
    Washer (12) forward into the trap body outlet, then tighten
    outlet nut (13). **No more than hand tight + 1/4 turn.

Maintenance

Remove Plug Assembly (1) from waste, clean debris from waste.
Flush water through trap periodically to clear debris from the
trap body.
